

FASTENER PRODUCTS

AICO is a large supplier of fasteners of all types to construction companies, mechanical engineering companies, and retail suppliers in North America, Europe, and Australia.

NAILS

AICO can supply a very wide range of nails in all head and point types, in varying wire qualities and either in plain or polished form. Lengths range from 25 mm to 80 mm and shank diameters from 2 mm to 4 mm.

SCREWS

As with nails AICO can supply a full range of screws of all types from wood screws, to self-tapping, and/or self-drilling screws (TEK type) in plain, plated or stainless steel materials, with various head types from slotted and cross-head types to more unusual head styles, and to various western standards.

AICO can also supply machined screws for engineering, and set and grub-screws in all grades and finishes.

NUTS AND BOLTS

A very full range of nuts and bolts are available from AICO. Threads in American, European, and Australian standards are available in sizes from 3 mm to 32 mm, and in various steel grades as required. High tensile steel bolts, 'U' type anchor bolts for the construction industry, and retail-type components are made to all lengths and diameters in black, plated, and stainless steel.

MASONRY ANCHORS

AICO can supply good quality locally made masonry anchors in various types, in diameters ranging from 5 mm to 18 mm, in black, plated, or stainless steel.
